LOCAL JOTTINGS.

Strathmore folks will now be called to their devotions on Sunday forenoons by the sound of the church bell, the Church of St. Michael's and All Angels having this week installed a fine new bell in the recently-erected belfry, a tasteful piece of work done by Messrs Barr & Hill.

The bell, which has a very sweet tone, weighs 475 lb., and is the gift of Mr. J. S. Dennis, of Calgary.

Non-subscribers should note our offer of the Standard for one dollar a year. It depends on the response, however, whether the offer is continued, so you had better act quick.

At the English Colony a principle which is rather novel to Alberta has been adopted, but it is one that seems to offer big possibilities in the future. The members of the colony have formed themselves into a co-operative trading society, naming it the "Nightingale Power & Trading Co.," and they have opened a store, while the plowing and threshing for the Colony will be also done by the Company.

At the hotel the other day a man said "When Al Knight gets the pool room going people will want to stay there all night." And he still lives!

Last week a private census of the town was taken, and the result was that a population of 450 was found within the present limits, 455 being residents and 35 transients. This census, it may be noted, included only people within the present limits, and did not include the people living across the track and past the schoolhouse, who in the event of incorporation would be included within the town limits, and would bring the population a long way over the 500 mark.

With regard to incorporation, the Council have called a public meeting for Monday, 17th inst., to discuss the subject of incorporation and various other matters affecting the public welfare. We believe incorporation to be a good thing, and seeing that Strathmore has now over the requisite population, it would be wise to go ahead with it.

Mr. Jos. Van Tighem, manager of the local branch of the Union Bank, was married at Calgary on Wednesday to Miss Kelly, of De Winton. After the marriage the happy couple left for a few weeks' honeymoon at the coast. Congratulations!

During Mr. Van Tighem's absence Mr. Major, of Medicine Hat, is acting manager of the Bank.

As previously announced, a Harvest Festival will take place to-morrow evening in the English Church. The preacher will be Rev. A. G. B. Dewdney, M.A.

Wanted—Competent maid-of-all-work.—Apply Mrs. F. T. McElhoes.

Several farmers have again drawn our attention to the want that exists for a public watering-trough for horses. We think the Council might take up the matter and put a trough near the Fire Hall. A connection could be made with the public well at the Hall with little expense. As the town is largely dependent on the farmers for its existence the townsmen should do the best for their convenience when they come into town.

Dr. J. F. Keefe, Sterling, Illinois, arrived here on Saturday, and will be here for about a week. Doctor Keefe has some land in the district, and intends to have it partly broke this fall.

A daughter was born to Mr. and Mrs. Fred Dukelow on Monday.

An Orange Valley correspondent sends us the following:—A large Chicken Supper will be held at the Orange Valley School house on Thursday, October 13, at 7 p.m., and a good program will follow. A collection will be taken up for the purpose of buying an organ for the church. Everyone is invited to attend. Only 4 miles south of Strathmore. Young men with your fine horses, come and bring your girls. Married men, come and bring your wives and children, and taste of chicken that is raised in the country, and share with the good time we will have.

Rev. G. W. Fortune, secretary of the Alberta Moral and Temperance Reform League, will speak in the Fire Hall to-morrow afternoon at 2.15. A general invitation is extended. As Mr. Fortune is a fluent and aggressive speaker, his address should be well worth hearing.

Mr. R. Alford, who superintended the construction of the new Bank of Commerce, has now a similar position in a large branch the same bank are putting in at Fort William. In a note to us the other day Mr. Alford says:—"I shall always have pleasant recollections of the city of Strathmore, and hope to have the opportunity of calling there at some future time."

A Model Outfitter

Now that the cold spells of winter will soon be upon us, the question of clothing to withstand its rigors is one that demands attention. There is no better way of settling that question than by paying a visit to Thos. E. Wright's men's outfitting store. He has what you need and what you want, for he has just received a big consignment of fall and winter suits and overcoats, in all styles and prices, felt shoes, moccasins, shoes and over shoes, shirts (flannel and tweed), sweaters, coats, sweaters, socks, caps and hats, underwear, nightgowns, collars, neckties, etc. Mr. Wright is carrying a stock of the "Invictus" shoe, which has a reputation all over Canada.

The store itself is new, large, handsome, and well-lighted, so that the goods are set out to advantage, and every opportunity afforded for inspection. You may always be sure of one thing, that you will always get value for what you spend at Tommy's, for he has always had a reputation for fair dealing, and both his prices and quality are right.

REASON

Monarch
WALLABLE
The Satisfactory Range

Come and let us demonstrate from the range itself. Let us show you how this construction is built and explain clearly how this construction has to do with all of the things you want most in your range. There is quickness of operation—reliability—fuel economy—long life—and economy in kitchen work—without proper construction and materials these essential qualities are not possible in a range. A few minutes' comparison of a Monarch Range with any other will show why.

THE WEST IS VERY LOYAL

BRITISH SENTIMENT STRONG IN THE WEST

Dr. George Bryce, Addressing the Royal Society, said that the Residents are Being Assimilated—Can rely on Integrity of Canadian People to Perpetuate Lasting Canadian Sentiment.

Ottawa.—The Royal Society of Canada met in the Natural science hall, under the presidency of Dr. George Bryce, of Winnipeg.

Dr. Bryce, president, in his opening remarks, stated that it had been agreed to have a unanimous James Bryce, from Washington, to deliver a lecture, but that Dr. Bryce had been unable to come.

He also explained that the Royal society had done in getting the government to establish an ethnological department of the geological survey, for which purpose two grants had been secured. The government had also promised that space would be given in the new museum for the storage of the valuable library of the society.

The evening feature was the presidential address by Dr. George Bryce. As a preliminary, Dr. J. W. Robertson, chairman of the royal commission on technical education and other members of the commission in the city were introduced, and Dr. Robertson in a short address explaining to the members of the society the objects which were being aimed at by the commission.

Dr. Bryce, in his address, said that he was glad to see the commission in the city, which it was his duty to lead. He said that the commission had been taken and that the members of the commission had been elected. He said that the commission had been taken and that the members of the commission had been elected.

The evening feature was the presidential address by Dr. George Bryce. As a preliminary, Dr. J. W. Robertson, chairman of the royal commission on technical education and other members of the commission in the city were introduced, and Dr. Robertson in a short address explaining to the members of the society the objects which were being aimed at by the commission.

The address by Dr. Bryce, on "The Canadianization of western Canada," was marked with a high degree of interest. It was largely historical, the speaker tracing the early days of the country from the time it was taken over by the British. He said that the British had been in the country for a long time, and that the Canadianization of the country was a process that was going on.

Speaking more particularly of the British, Dr. Bryce said that the British had been in the country for a long time, and that the Canadianization of the country was a process that was going on. He said that the British had been in the country for a long time, and that the Canadianization of the country was a process that was going on.

He said that the British had been in the country for a long time, and that the Canadianization of the country was a process that was going on. He said that the British had been in the country for a long time, and that the Canadianization of the country was a process that was going on.

INDIANS PREDICT COLD WINTER

They are Among in the Hills are Preparing for a Heavy Snowfall

Fort George.—The Indians along the Kootenay river flats, near Kootenay Landing and in the Creston and Bonanza districts are predicting that the coming winter will be a very cold one. They say that the snow will be heavy and that the ice will be thick. They say that the snow will be heavy and that the ice will be thick.

Both the men who have spent many years of their life in the hills and the Indians are usually close observers of the habits of animals and such deep believers in the truth of the Indian, or whatever it may be, that guides them in their continual fight against nature. It is not, it is interesting to see the prospectors who have recently returned from the hills, and who have seen wild animals certainly seem to be preparing for a cold winter and much more.

POLICE ATTACK REPORTERS

Newspaper Men Complain About the Methods of the American Police

Berlin, Germany.—The American Ambassador in Berlin, acting on instructions of the German government in Washington, called at the American legation recently, and requested an inquiry into the conduct of the police in the city. He said that the police had been attacking reporters and that they had been using force against them.

He said that the police had been attacking reporters and that they had been using force against them. He said that the police had been attacking reporters and that they had been using force against them.

10,000,000 ACRES OF GOOD LAND

Such is the Report of the Exploration Division of the Interior Department

Regina, Sask.—The report of the exploration division of the interior department, which was made public last week, shows that there are 10,000,000 acres of good land available for settlement in the present state of the country.

The report shows that there are 10,000,000 acres of good land available for settlement in the present state of the country. The report shows that there are 10,000,000 acres of good land available for settlement in the present state of the country.

IN PURSUIT OF CONSPIRATORS

At Least Three Men Are Supposed to Be Responsible for the Conspiracy

Los Angeles, Cal.—The stimulus of proffered rewards, aggregating \$100,000, hundreds of policemen and private citizens in all the coast cities are searching for clues that may lead to the discovery of the conspirators responsible for the blowing up of the house of General Harrison Otis and of the "Navigator of the Coast," Merchants' Association.

The police and civil officers believe that at least three men were concerned in the outrage, which cost the lives of a detachment of the coast survey corps, which had just arrived here on the way to Vancouver, after having completed the final work for the season of 1910. He says:

"The Canadian-Alaskan boundary survey work, which has been on for years past, is slowly drawing to a close. Already the international line between British Columbia and the Alaskan side from Portland canal to Mount St. Elias is practically determined. The boundary between Vancouver and the United States is also nearly completed. The part of its 600 miles a virgin country of unexplored territory is now being approached. The unbroken wilderness is being explored for its value for the survey of the line of a ship canal."

One newspaper, that has been for some time in the hands of the police, has been circulating a story that a page editorial demanding that, in view of the situation, the police should be called out in connection with the explosion, and that the police should be called out in connection with the explosion.

FOREIGN SCRIBES INCENSED

Summoned to Police Board in Berlin to Tell of Their Misconduct

Berlin.—The president of the police board has summoned to the police board the English and American newspaper men who were on duty at the time of the explosion, for a hearing of the board. The board is to hear the testimony of the police officers who were on duty at the time of the explosion, and to hear the testimony of the newspaper men who were on duty at the time of the explosion.

It was explained that this request was made upon the basis of a report made by the American and British newspaper men who were on duty at the time of the explosion. The report was made by the American and British newspaper men who were on duty at the time of the explosion.

MARKING THE BOUNDARY LINE

INTERNATIONAL FIELD SURVEY IS WELL UNDER WAY

Work on Boundary Line Between Alaska and Canada is Being Finished—Many Difficulties Encountered by Survey Parties—Controversy Over Use of Airships to Cover Inaccessible Regions.

Dawson.—A review of the surveying, mapping and contouring of the boundary line between Alaska and Canada is given by one of the members of a detachment of the coast survey corps, which has just arrived here on the way to Vancouver, after having completed the final work for the season of 1910. He says:

"The Canadian-Alaskan boundary survey work, which has been on for years past, is slowly drawing to a close. Already the international line between British Columbia and the Alaskan side from Portland canal to Mount St. Elias is practically determined. The boundary between Vancouver and the United States is also nearly completed. The part of its 600 miles a virgin country of unexplored territory is now being approached. The unbroken wilderness is being explored for its value for the survey of the line of a ship canal."

One newspaper, that has been for some time in the hands of the police, has been circulating a story that a page editorial demanding that, in view of the situation, the police should be called out in connection with the explosion, and that the police should be called out in connection with the explosion.

MAY CHANGE ROUTE

G. T. P. Will Likely Traverse Lillooet District in British Columbia

Vancouver, B. C.—Almost a certainty that the proposed branch of the Canadian Pacific railway, which will connect the city of Vancouver with the coast, will traverse the Lillooet district in British Columbia. The Election Result

The polling for the election of a
representative from Gleichen Dis-
trict to the Alberta Legislative As-
sembly took place on Monday, and
resulted in the return of Mr. A. J.
McArthur, Crescent Heights, by a
majority of 204 over his opponent,
Mr. E. H. Riley, the former member.
In Strathmore the parties
broke even, 60 votes being polled
on each side, with 5 votes disputed,
which made a total of 125, out of
over 170 persons qualified to vote.
The result was somewhat of a sur-
prise, as it had been expected that
Mr. Riley would poll a majority in
Strathmore.

W. W. Brown, of Strathmore,
was returning officer for the dis-
trict, while W. E. Vickery was de-
puty returning officer for Strath-
more. Wm. Ferguson was enu-
merator, while Roy Lashbrook was
polling clerk, and all performed
their duties to general satisfaction.
The Strathmore result was known
shortly after 6 o'clock.

Business Changes

As will be seen from our ad-
vertising columns, the present editor of
this newspaper has bought over the
entire business from Mr. W. Park
Evans, of Gleichen. The change
will be more a nominal than an
actual one regarding the manage-
ment of the paper, as since the first
issue appeared, on October 2, 1909,
the present owner has been editor
and manager.

Another business change took
place this week, Mr. Al Knight buy-
ing over the pool room, barbery
shop and bowling alley in the Mac-
Kinlay block on First Street from
Messrs. Redford & Buehler. Mr.
Knight is very popular in the dis-
trict, having been farming here for
some years past, and under his
management the establishment
should be a favorite resort for a
night's enjoyment.

Building Boom in Strathmore

Strathmore is about to experience
a renewed boom in building activity
according to present indications.
Since last fall the carpenters have
been kept busy all the time, unless
when prevented by the weather,
and as a result the town is now
about double the size it was a year
ago.

With the completion of the new
and handsome Bank of Commerce
building it was thought building
activity would slacken down, but
the prospects are there will be lots
of work till the end of the year.
Foundations are being put in for
two new churches, Presbyterian and
Methodist, which will cost some-
where about \$3000 apiece. A Cath-
olic church is also being built. It
is surely a record for any town in
the district to have three churches
building at one time. Alterations
are also being made to the English
Church, which has had a tower and
bell, with bell added.

An extension of the Modern
Rooming House, which will cost
\$4000, is to be started immediately,
and an effort is to be made to have
it completed within the next three
months. The intention of the pro-
moters is to convert the Rooming
House into an hotel.

Mr. Geo. Lloyd has Mr. Edw.
Paulkner and a staff of carpenters
employed at present making exten-
sions and improvements to the Aus-
pex on Second Street, the upper
storey of which he proposes to
lengthen to 100 feet and convert
into an opera house.

These are the main jobs on hand,
but there are a number of smaller
ones projected for the fall.

H. J. SPICER,
Secy.-Treas.

Natural Gas Again

COUNCIL DISCUSSES THIS AND OTHER SUBJECTS ON MONDAY

On Monday evening a meeting of the Strathmore Council was held in the Fire Hall. Councillors McElhoses and McCulloch were present, with Mr. H. J. Spicer, secretary-treasurer, and Mr. Dingman, managing director of the Calgary Natural Gas Company. Councillor Waddy was absent on election business. Despite the election excitement and the heavy rainstorm that prevailed, there was a representative attendance of ratepayers.

The first business that came up was that of sidewalks in the town, and on this there was considerable divergence of opinion. A proposal was made that the Council take over the sidewalk on Second Street and build a sidewalk from the Railway Station to the King Edward Hotel, also from Second Street to the Schoolhouse. Councillor McCulloch, while favoring the two latter propositions, opposed the proposal to take over the Second Street sidewalks. He thought the voice of the ratepayers should be heard on the matter, and for that end he moved that a public meeting be held on Monday, October 17, to discuss the question of sidewalks and incorporation. This was agreed to.

SCHOOL ACCOMMODATION INADEQUATE

Mr. McElhoses said that as a representative of the School Board he put forward a request for the use of the upper story of the Fire Hall temporarily as a primary school-room. The schoolhouse was now inadequate to hold all the children, and it was necessary to have a third room and another teacher to cope with the growth in numbers.

Mr. McCulloch was in favour of this, but said it would be necessary to finish the hall first, and moved that the hall be lathed and plastered.

STREET GRADING

It was agreed to advise a grade on First, Second and Third Streets.

TOWN CONSTABLE

It was agreed to appoint F. H. Tucker as town constable for a period of one month at a salary of \$50. It was found that this worked all right the position would be made a permanent one.

FIRE ALARM

The secretary was instructed to obtain figures as to the cost of a bell or fire alarm apparatus for the Fire Hall.

DEBENTURES

Several offers were received for the town debentures, but it was agreed to extend the time for receiving offers to October 1st.

NATURAL GAS

A motion was moved by Mr. McCulloch that a by-law be drafted authorizing the Council to accept the proposition of the Calgary Natural Gas Company for the laying of pipes through the town. As has been explained in the past, this company is desirous of getting a franchise from Strathmore for the supplying of natural gas to the town.

Mr. McCulloch said that this company proposed tapping the natural gas field between this point and Glenora. They had already started work near Glenora, and they proposed to lay pipe lines from there to Calgary, and if an agreement was entered into with Strathmore would bring their lines into the town. Mr. Dingman visited here several weeks ago, and submitted his proposition to the Council, and it seems very fair and satisfactory to them. The first thing that had to be done would be to prepare a by-law, and after that to get the signatures of not less than one-half of the ratepayers.

Mr. Dingman, in an explanatory speech, said that his company had already put down two miles of pipe, and had found gas at a depth of over 4000 feet. The expense of drilling to that depth was very great, and it has been determined to go further east for a supply, with the result that at present the gas is drilled at the Reserve.

The gas would be conveyed from there by pipe line to Calgary. Taking a direct line to Calgary would leave Strathmore 5 or 6 miles from the pipe, but the company proposed, if they got a franchise for the supply of gas to Strathmore, to bring the pipes along the C.P.R. right of way, and thus supply Strathmore. They did not propose to dicker and bargain, but they offered Strathmore a fair and equitable agreement. They would supply the gas at 35 cents per 1000 cubic feet for domestic purposes, and 45 cents per 1000 for power purposes. They would agree not to charge Strathmore a higher price than any other municipality with the exception of the Calgary, and would lay the pipe

GEORGE H. LLOYD

lines through the streets at their own expense. The cost of natural gas was very little as compared with the price of artificial gas, which was \$2 per 1000 feet. Mr. Dingman went into details as to the agreement, which was afterwards read by the secretary, and he afterwards answered a number of questions put by ratepayers present to their satisfaction.

At the close of the meeting all the ratepayers present appended their signatures to the by-law with the exception of Mr. Chase, who said

that there were some points on which he still desired enlightenment but he would bring them forward later.

As the agreement is rather long, we have not space to publish it in this issue, but we would advise every citizen to be present at the meeting in the Fire hall on the 17th inst., and hear it read.

The questions of incorporation and sidewalks will also come up, and everyone who has the interests of the town at heart should make an endeavor to attend.

A society was formed last Wednesday evening with Mr. Spicer as president under the name of the Alpha Literary Club. The club proposes to hold a debate every Friday evening during the winter or in the middle of March. In order to pay for lighting and heating an admission fee of five cents will be charged when necessary. The first meeting will be held in the Fire Hall on Friday evening, October 21, when a very interesting time is assured, as the programme committee has secured a very excellent programme.

Mr. S. H. Montgomerie, of Melrose, Ill., is here just now looking after his farm interests here and in Aldridge. Schultz Bros. are managing his Strathmore farm.

Mr. Norman Holmes, who took over Mr. Geo. Lloyd's store last month and renamed it "The Popular House," has already secured a large proportion of public patronage by reason of the low prices and good values he is offering. He is at present getting in a number of new lines, and a visit to his store will be well worth money to you.

On Thursday twenty-five cars of cattle—roughly speaking, 400 head—were shipped from Strathmore. Their shipping destination is Montreal, from where they will be exported to Europe.

All over the country the kids are about as enthusiastic over the arrival of the Venus de Milo as they are about baseball. Better take a look out of the window yourself and see if your little Willy isn't sailing around over the barn.

First Girl (looking at statue of the Venus de Milo)—"What terrible thick waists girls must have had in those days!"

Second Girl—"Yes, but perhaps the gentlemen's arms were longer."

No better cigarette the world over than**Simple and Easy**

Two commercial travellers, while in a train, got into an argument over the merits of the vacuum pump.

"It's the inflation of the tube that stops the train," declared the first traveller.

"Wrong wrong!" shouted the second. "It's the output of the exhalation."

So they wrangled for an hour. Then, when the train arrived at the station, they agreed to submit the matter for settlement to the third.

That gentleman, leaning comfortably against the door of one of the coaches with an attentive frown to the two travellers' statement of the dispute.

Then he smiled, shook his head, and said:

"Well, come, you're both wrong about the work of the vacuum pump. Yet it's very simple and easy to understand. When we want to stop the train we just turn this very tap, and then we fill the pipe with vacuum."

He Feared Blood Poison.

But Zam-Buk Saved His Thumb!

Once again a case is reported in which the popular balm Zam-Buk has saved a worker from the terrible effects of blood poisoning.

Mr. H. Orth, of Stirling, Ont., says: "While at work I had the misfortune to run a rusty nail under my thumb nail, to the depth of about one and a half inches."

The pain was terrible, and what I feared was that the nail, being so dirty and rusty, would enter my feeding and blood-pipe. I knew that if I did not get it out soon, my blood would be poisoned."

The trouble was wonderful! It seemed the pain and the wound actually did not seem to heal. I was actually doing all I could to get it out, and in a few days the thumb was as good as ever, but when I cut it out this should be in every workman's home."

Zam-Buk is the finest form of "insurance" for all workers. Its anti-septic and germicidal properties prevent disease germs from living in it, and it immediately applies to the wound, whether it be a cut, a burn, a scald, a bruise, or a dislocated joint, and it is the best remedy for all such injuries.

When you get a cut, a burn, a scald, a bruise, or a dislocated joint, and it is the best remedy for all such injuries.

**FRUIT-ACTIVES, THE FAMOUS
FRUIT MEDICINE, SAVED HIS LIFE.**

JAMES DINGWALL, Esq.
Williamstown, Ont., July 27th, 1908.

"I suffered all my life from Chronic Constipation and no doctor, or remedy, I ever tried helped me. 'Fruit-actives' promptly cured me. Also, last spring I had a attack of BLADDER and KIDNEY TROUBLE and the same medicine gave me up but 'Fruit-actives' saved me."

At the age of 41 and strongly recommend 'Fruit-actives' for Constipation and 'Kidney Trouble'.

SIGNED JAMES DINGWALL, Esq.
"I can offer no other evidence but that I am a satisfied user of 'Fruit-actives' medicine, Canada."

An Unexpected Catch

James—Where have you been, James?

"Fishing."

"You're out of the woodshed and you'll have a whaling expedition."

Do it Now.—Disorders of the digestive apparatus should be dealt with at once before complications arise that may be difficult to cure by the strict remedy to which you are at once subjected.

Colored vests are to be popular this fall. The favorite color is brown. Others include bronze, steel, navy and royal blue.

RHEUMATIC PAINS

**Not Due to Cold, Wet Weather
—The Trouble is Rooted in the Blood.**

Many people believe that the twinges and tortures of rheumatism are due to cold, damp, or wet weather, and treat themselves by rubbing with liniments and ointments.

But this is a mistake, and one which allows the disease to take root in the system, to the extent that it is often impossible to get it out of the system.

THE TALE OF A CAT.

How a Toronto Merchant Made a

Peddler Pay.

The other afternoon, in the hour of the heat, not much business was doing in the stores about College street.

In a shop on the corner stood one of the most interesting sights in the city.

At the vehicle butted past the stop a cat, having, for some reason of its own, decided that it wanted to cross the road, undertook to do so, but miscalculated in some way, as if he had

been crushed it to death. The driver, with a frightened look at the slaughter he had done, struck his horse and showed on the reins.

At the moment the man in the doorway sprang into the street, and, with a shout, stopped the horse.

Two blocks away a policeman stopped a man from a short distance, and, with a shout, stopped the horse.

"Why," said the policeman, "you had no business driving like that. I saw you pass that cat killed for five dollars."

"Not your fault—not your fault," said the man, "it was my fault. I was in the street when the cat was killed. I was in the street when the cat was killed. I was in the street when the cat was killed."

"Here, here! what all this?" demanded the policeman, who had just arrived.

"He's killed the cat and he's got to pay for it. I wouldn't have been that cat killed for five dollars. It's a cat, you see, it's a cat, it's a cat."

"Two dollars," exclaimed the policeman, "appearing with his eyes high."

"Two dollars—that's what?" "He's a cat, it's a cat, it's a cat."

"That must have been a valuable cat. What a loss!"

"I don't know," said the merchant. "I don't know, I never saw it before. I didn't say it belonged to me. I don't know who it was. I was in the street when the cat was killed. I was in the street when the cat was killed. I was in the street when the cat was killed."

"That must have been a valuable cat. What a loss!"

"I don't know," said the merchant. "I don't know, I never saw it before. I didn't say it belonged to me. I don't know who it was. I was in the street when the cat was killed. I was in the street when the cat was killed. I was in the street when the cat was killed."

"That must have been a valuable cat. What a loss!"

"I don't know," said the merchant. "I don't know, I never saw it before. I didn't say it belonged to me. I don't know who it was. I was in the street when the cat was killed. I was in the street when the cat was killed. I was in the street when the cat was killed."

The Member for Gleichen

Strathmore Literary and
Debating Society

As will be seen from our advertising columns, Strathmore Literary and Debating Society are opening up business again for the winter, and the first meeting will be held on Thursday evening in Strathmore Hall. This will be an organization meeting for electing officers and getting an outline of the season's work. On the following Thursday an address will be delivered by Professor Elliot, superintendent of the Demonstration Farm. A musical programme will be rendered in connection with this meeting, and it is intended to make music a feature of these meetings. Professor Elliot is an interesting and practical speaker, and should attract a large audience. This society had a very successful session last winter, and with the increased population should do better than ever this session.

Former Election Results

In view of the outcome of Monday's election it is interesting to look back on the results achieved by Mr. Riley in former elections, which are here appended.

In the general election of 1909 when Mr. Riley ran as a straight Liberal candidate, he was returned with a majority of 245 over James Shandhouse, a straight Conservative, who was one of his strongest workers in this last campaign.

In his first election in 1905, Mr. Riley was elected by a majority of 125. On that occasion also he ran as a straight Liberal against W. L. Walsh, K.C. of Calgary, who was the Conservative nominee. The vote polled then was, Riley 559, Walsh 431.

In the first election in Gleichen in 1905, when Mr. Justice Stuart ran against Mr. J. Hayes, Mr. Stuart defeating his opponent by 27 votes, the figures on that occasion being Mr. Stuart 667, Mr. Hayes 640. Later, Mr. Stuart resigned to go on the bench, and this caused the election of 1906 when Mr. Riley defeated Mr. Walsh by a majority of 128.

The detailed result of the 1909 elections was as follows:

Gleichen.....	100	47
Strathmore.....	34	67
Chandler.....	12	10
Langdon.....	39	27
Shepard.....	35	54
Box River.....	10	3
Morehouse.....	24	41
Riverside.....	105	38
Crescent Heights.....	42	38
Hillhurst No. 1.....	111	38
Hillhurst No. 2.....	55	18
Bedlington.....	12	37
Ragle Creek.....	26	13
Bassano.....	21	7
Brooke.....	7	10
Rowland.....	11	1
Williams.....	26	25
Lille.....	9	20
Crowsfoot.....	14	2
Totals.....	720	925
Majority for Riley.....	245

GLEICHEN NOTES

(From the "Call")

A. Brossen took a snap-shot the other day at the Palace Hotel which will make many a handsome souvenir to look upon. The view was of 37 prairie chickens lung across the hotel veranda in three rows, which were the spoils of a four hours hunt spent by Eulor Brossen, Wm. Service, Sr., and Wm. Service, Jr. They were a fine looking lot of birds.

The Mosses, Brossen, proprietors of the Palace Hotel, wish to announce that they have secured Mr. Grisdah's new Opera House for Tuesday and Wednesday evenings Oct. 11th and 12th and intend giving public dances on those evenings. Further particulars may be obtained on application to these gentlemen.

Frank McKay underwent an operation for appendicitis at Rochester, Minn., last week, and it is believed is recovering nicely. Mrs. McKay has gone to be with him and accompany him home.

Mrs. J. J. Bartsch returned to her home in Gleichen on Friday last from the Calgary hospital, where she underwent a very serious surgical operation. Her numerous friends will be pleased to learn that she continues to improve rapidly.

J. M. Telford left on Friday for Vancouver, where he intends moving his family a few weeks hence. He already owns considerable property on the coast. Mr. Telford is one of our numerous successful ranchers and farmers, and having accumulated a large fortune from a start of only his will to work, will now endeavor to take life easy the remainder of his days. He will visit Gleichen from time to time as he still owns a great deal of town and farm property here.

"Black Bear," owned by W. G. Kuyvet, of Strathmore, has been in Gleichen for several days past and is being trained by "Doc" Hughes and is expected to be among the winners. Mr. Kuyvet also has another fast horse that he will bring down.

The Palace Hotel proprietors have decided to give dances in the new Gleichen Opera House on Tuesday and Wednesday evenings, thus assuring plenty of entertainment for each night of the exhibition. The admission will be 41 for gentlemen and ladies free, but a charge of 25c per plate will be made for supper served in the hotel.

Jas. Gibson and Geo. W. Evans brought the first antelope to town this season on Monday, each having shot two east of the C. P. R. stopping house. George also succeeded in shooting a wild goose, having the good luck to bring down seven in two shots. They report antelope plentiful in that section and claim they could easily have shot more.

Mr. and Mrs. G. Gaudaur, who arrived in town a couple of weeks ago to visit their son C. F. Gaudaur, have decided to remain permanently in town. Mr. Gaudaur is a taxidermist of vast experience and it is expected will open business in that line here shortly.

THE POPULAR HOUSE

AN ADVERTISEMENT IN THE STANDARD S A PROFIT PRODUCER

If you doubt this, ask those who already use our advertising columns.

BETTER STILL-TRY IT YOURSELF

Consistent and intelligent Advertising will bring Business, and earn you money.

The STANDARD circulates in the whole district between Langdon and Namaka, and also among intending settlers and people interested in the country in the U.S.A.

Established October 1909, circulation is now 600, and growing all the time.

Today we are moving our building and printing plant one lot further north in order to make room for the new hotel on Third Street. This has necessarily curtailed our local news service, as we have had to go to press earlier than usual, but by the beginning of the week we hope to be settled again.

After 18 months work a good flow of natural gas has been struck at Bassano. It should not be so very long before we have a supply of natural gas at Strathmore. It stands to reason that if gas can be struck at Bassano and Calgary it can be struck at the Reservoir, where the well that is to supply Strathmore is being drilled, as that point is between Calgary and Bassano.
